The symposium in Columbus will celebrate Weese’s architecture and take place at the Indiana University Center for Art and Design (IUCA+D) April 4 & 5, 2014. Columbus contains a high concentration of Weese’s early works in close proximity to buildings by his teacher and mentor Eliel Saarinen and his son Eero. The symposium will explore the idea of a regional modernism created by Saarinen and Weese, and with contemporary designer, Marion Blackwell, Julie Snow, Maryann Thompson, Frank Harmon, and Ben and Cynthia Weese.
